

# The Goal

---

**Lisbon Main Street** was created to ensure the vitality of Lisbon's downtown by preserving, enhancing, and promoting its unique economic, social, cultural, and architectural heritage.

To accomplish this goal, we believe it is important to focus on the foundation of our community—an attractive and comfortable downtown—improving and enhancing its visual appearance, while paying special attention to restoring and preserving its historical integrity.

**Lisbon Main Street** is pleased to present its Façade Improvement Project & Grant. Any business or property owner with an exterior improvement project in mind is invited to apply (see *inside for details and application*). The Design Committee will select projects to receive grants (one to three projects per year). Design committee members will work with individual property owners to plan the project and, upon completion, project owners will receive a matching grant of up to \$500 toward project supplies.
